

## Screenshots of Results:

The screenshot shows the MongoDB Atlas web interface. On the left, a sidebar contains navigation links for Overview, DEPLOYMENT, Database, Data Lake, SERVICES, and SECURITY. The main panel displays the 'Find' tab for a collection named 'yogaparticipants' in the 'Demodb' database. A search filter is applied: 'Type a query: { field: 'value' }'. Below the filter, two documents are listed:

```
{
  "_id": ObjectId('657ea73a3e0b4ca8041eb33b'),
  "name": "Sagar",
  "email": "skgupfkqc@zeroe.ml",
  "age": 19,
  "selectedBatch": "6-7AM",
  "__v": 0
}
```

```
{
  "_id": ObjectId('657f21658a03ff0cdd35680a'),
  "name": "Sagar",
  "email": "ihskltjed@laste.ml",
  "age": 26,
  "selectedBatch": "6-7AM",
  "__v": 0
}
```

At the bottom of the interface, a system status message reads: 'System Status: All Good'.

```
_id: ObjectId('657ea73a3e0b4ca8041eb33b')
name: "Sagar"
email: "skgupfkqc@zeroe.ml"
age: 19
selectedBatch: "6-7AM"
__v: 0
```

```
_id: ObjectId('657f21658a03ff0cdd35680a')
name: "Sagar"
email: "ihskltjed@laste.ml"
age: 26
selectedBatch: "6-7AM"
__v: 0
```
